

## **Matlock and Ashover Practice**

**8 Imperial Road . Matlock . Derbyshire. DE4 3NL**

**Milken Lane, Ashover, Chesterfield S45 0BA**

**Salaried Doctor Position for 4-6 Sessions per Week**

Due to a planned retirement and local expansion, we are looking to recruit one or two permanent salaried doctors over the next 10 months. We are prepared to wait for the right candidate to relocate or finish their training.

Our practice is on the edge of the Peak District and has 8000 patients in Matlock and 2000 in Ashover. We have a patient-centred approach and a strong, supportive team who work and socialise well together too. We want our doctors and dedicated team to enjoy their work and their lives, whilst providing an excellent service to patients and high quality care. The practice works closely with its community and our patients come from a good mixture of social backgrounds.

Our last published Matlock CQC rating was outstanding and we achieve nearly all QoF points. We use EMIS Web and work from modern buildings in the town of Matlock and the village of Ashover.

The practice has two GP registrars, four GP trainers and 4<sup>th</sup> and 5<sup>th</sup> year medical students from Nottingham University. The medical team is comprised of 6 partners and 2 salaried doctors. We value the partnership model still in a realistic way. We encourage outside interests which presently include, or included: working with the BMA/LMC, local GP Federation, GP Training Programme Director, Pre-hospital Emergency Care and the local Drug Misuse team. The practice is as flexible as it can be with its appointment system and working patterns to meet the needs of its team and patients alike. Our excellent administration team provides a lot of support to the doctors, to keep their workload to a minimum.

We are an innovative and exciting place to work and are always open to new ideas. So come and meet us and see what you think.
